Sprint 3 Report

Product: WinRate

Team: WinRate Development Team

November 17, 2019

Actions to stop doing:
- None

Actions to start doing:
- Creation of the Statistics tab
  - The statistics tab is one of the high level goals for our project. The Statistics tab displays the most complex piece of UI in the project, a pie chart infographic visualizing the win/loss ratio of game log entries in the room database.
- Creation of the Settings tab
  - The Settings tab will be used to house debug options, as well as let the user set their username.

Actions to keep doing:
- Life counter and Contact Book tabs must be completed.
- Additional tables in the room database must be created, for deck profiles.

Work completed/not completed:
- Life counter has basic functionality, can be used to keep track of score during a game.
- Contact book has basic display and functionality, users can add rows to the contacts book table in the database.

Work completion rate:
- First two user stories complete, for a total of 6 story points.
